## Paddy Separator SMAZ-S2

The Zaccaria Indented Screen-Type Paddy Separator model SMAZ-S2, performs the separation of paddy from brown rice with high efficiency as it makes use of the difference in specific gravity between these two products. The separation process occurs as a result of the configuration of the indents in combination with the reciprocating motion of the inclined trays. The new and revolutionary roll system ensures a uniform and smooth table movement, providing high production of brown rice.

### Model:

**SMAZ-S2**

### Power / poles:

2,2 kW / VI  
3 hp / VI

### Capacity on brown rice (kg/h):

2400 to 4000

### Approximate shipping weight (kg):

725

### Approximate shipping volume (m<sup>3</sup>):

6,5

### Machine dimensions (mm):

A	B	C	D
1800	2145	1525	216

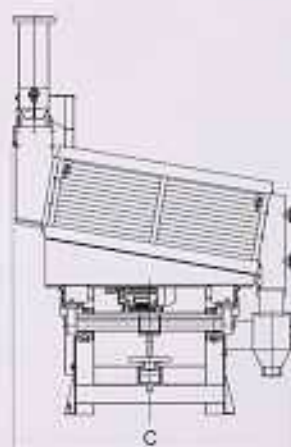

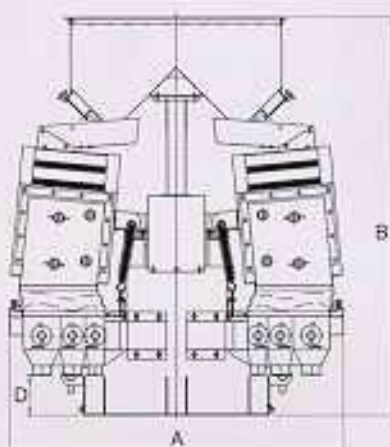

### CONSTRUCTION CHARACTERISTICS

- Weld structure ensuring lightness and rigidity;
- Replacement parts (bearings and belts) easily found in the market;
- Upper and lower sensors ensure constant product feeding;
- Charge hopper extension (optional);
- Indented trays made of stainless steel sheet.

### FEATURES

- Small installation space required;
- Low power consumption;
- Higher production;
- Higher efficiency;
- Low maintenance costs;
- Easy to adjust.
